Avira Management Console

Update from SMC version 2.6 to AMC Version 2.6.1

HowTo

Update from SMC version 2.6 to AMC Version 2.6.1

Please note that the Security Management Center (SMC) will be renamed to Avira Management Console (AMC) with the update from version 2.6 to 2.6.1.

Direct update:

- 1. Click with the right mouse button on "Avira Security Management Center Frontend", and select *Update > Frontend*.
- 2. Select *Update > Server > Start update* to update the server.

or

Select *Update > Frontend* to update the front end. The following message appears if you want to update the SMC Server:

Question		×
?	Are you sure you want to update the Avira Management Console Server? The server connection needs to be interrupted for the updating. Please re-establish the connection in a few minutes.	
	Yes No	

When updating the SMC Frontend

Click **Yes** to confirm and close the SMC Frontend if necessary. The connection to the SMC Server will be interrupted.

Avira SMC will connect to the Internet Update Manager, which provides the updates of the product.

Restart the AMC Frontend and log in again to the AMC Server.

Updating SMC Agents

It is recommended to update the SMC Agents automatically via the Avira Internet Update Manager (default setting).

How to update SMC Agents across the network or in a specific group

Click with the right mouse button on the node "Security environment" or on the nodes of the group and select *Commands > Avira SMC Agent > Start Update*.

How to update SMC Agents on a specific computer

Click with the right mouse button in the security environment on the node of the computer at "Avira SMC Agent" and select *Commands* > *Start Update*.

You can schedule updates of SMC Agents also chronologically. For this, please navigate with a right-click on the SMC Agent of the client via *Commands* > *Start Application*. Click within the window "Commands" on the button **Schedule this command**.

Note

The Agent keeps its original name "SMC Agent" name during this update. The Agent will only assume the name "AMC Agent" with a new installation of the Avira Management Console.
