

Avira SmallBusiness Suite

The security solution for small and medium-sized businesses

Are you running a network of between 5 and 100 computers under Windows? The **Avira SmallBusiness Suite** allows you to protect all IT components with award-winning Avira virus protection. There is also an additional spam protection feature. Plus the **Avira Security Management Center** for efficient management.

Functions

- Professional security package for small networks and the ideal add-on for businesses that use the Microsoft SmallBusiness Server, for instance
- **Leading detection** and removal of viruses, worms, Trojans, adware/spyware and other malware
- Innovative **AHeAD technology** (Advanced Heuristic Analysis and Detection) for detection of unknown or fast changing attackers for proactive security
- Avira Rootkit Detection (protects against tempering processes) incl. repair function
- When using Avira AntiVir Exchange: Identification of spam emails and detection of potentially dangerous content and attachments
- Real-time monitoring of HTTP-based Internet data traffic on the desktop; quarantine to isolate suspicious files
- Easy installation and configuration of the security environment to be protected via the Avira SmallBusiness Suite configuration wizard
- Central control of searches and updates and network-wide administration via the **Avira Security Management Center**

Advantages

Avira SmallBusiness Suite provides optimum protection for your Windows PCs and servers, as well as your email communication. It is also very easy to use. That's because the Suite does not take long to install and configure and, thanks to **Avira Security Management Center** (SMC), is easy to administer. For companies with between 5 and 100 computer workstations.

All this at a price up to 40 % less than the individual licenses if purchased separately.

All inclusive

- **Avira AntiVir Professional** – the best possible protection for your desktop PCs
NEW: Now also includes behavior-based detection with Avira AntiVir **ProActiv**.
- **Avira AntiVir Server** (Windows) – maximum security for your file servers
